

Company Overview – Grew Energy Pvt. Ltd.

Grew Energy Pvt. Ltd. is one of India's fast-emerging renewable energy companies, specializing in solar module manufacturing and sustainable energy solutions. Our mission is to accelerate India's clean energy transition by delivering innovative, high-quality solar technologies.

We are part of the Chiripal Group, a well-established industrial conglomerate with a legacy of over 50 years. The Chiripal Group is a trusted name across sectors like textiles, petrochemicals, and packaging, with leading companies such as Nandan Denim, Chiripal Industries, Vishal Fabrics, Chiripal Polyfilms, and more under its umbrella.

Leveraging this strong foundation, Grew Energy is rapidly scaling its operations to become a key player in India's green energy revolution. With state-of-the-art manufacturing, a focus on sustainability, and a commitment to innovation, we offer exciting opportunities for young technical talent to be part of a future-forward industry.
