ABOUT US

Shipmozo is a cutting-edge Multi-Carrier ecommerce shipping Solution Company, streamlining shipping processes for businesses. Offering domestic and international shipping, real-time tracking, and automated order processing, Shipmozo integrates with major e-commerce platforms. With competitive rates, businesses can save money on shipping costs. Access to a network of over 29,000 pin codes in India and international shipping to over 220 countries ensures timely deliveries. Exceptional customer service is a priority.

.

JOB RESPONSIBILITY

- Work on client onboarding and handling
- Participate in training sessions to understand software testing principles, methodologies, and testing tools used within the organization.
- Acquire a strong grasp of the software development lifecycle and testing best practices.
- Execute test cases based on predefined test plans and requirements.
- Identify and document defects, inconsistencies, and other issues encountered during testing.
- Log defects accurately and promptly into the defect tracking system, providing clear and detailed steps to reproduce the identified issues.
- Follow up on the status of reported defects to ensure their resolution.
- Assist in creating and maintaining test artifacts, including test cases, test scripts, test data, and test reports.
- Contribute to the continuous improvement of test documentation processes.
- Participate in regression testing to validate the stability of software releases and ensure no new defects are introduced.
- Collaborate with cross-functional team members, including developers, business analysts, and senior testers, to clarify requirements and contribute to the overall quality of the product.
- Stay updated with the latest trends, tools, and methodologies in software testing to enhance testing skills and knowledge.
- Assist in setting up and configuring the testing environment, ensuring it aligns with the requirements of the testing process.
- Support in preparing or acquiring relevant test data required for testing various scenarios.

.

WHY WORK WITH US:

- Fun-filled WORKPLACE.
- Amazing development and learning opportunities

Thank you!
